

We are proud to announce the release of the new branding for the combined **Coveney** and **Uni-Flooring** Contracting business.

This fresh new branding combines the Coveney brand and the acquired company of Uni-Flooring Resources with the new logo combining the historical colours of those brands.

*“Being innovative in Flooring has meant we also need to be innovative as a company. Our strengths are three parts now – **Coveney**, **Uni-Flooring Resources** and the pioneering process power of **Stepwise** – all important pieces geared to exceed customer satisfaction.”*

These three defining drivers that set us apart from our competitors, have been the instrumental reason to create Citrus Commercial Group – forward thinking and hard working.

Our team remains the same, specialising in Project Management, Consultation, Installation and Maintenance. We still hear our customers, and value our team’s knowledge to execute project plans that delivers first time, every time.

The entire Coveney philosophy is built into Citrus Commercial Group to develop trusted relationships and sound solutions across all segments of the industry.

“We strongly subscribe to the notion of continuous quality improvement and best customer value proposition – we are only as strong as our last floor installation. Therefore, our commitment to the pursuit of excellence will ultimately drive the execution of our goals and objectives.”

Welcome to the new standard
